

BISTROMat feeders

The Bistromat feeders can be used for piglets (type P) and for wean to finishing pigs (F). Variable settings allow perfect feed adjustment according to the animals' requirements.

Benefits

- stainless steel trough available either with one or two drinking bowls
- optimized trough design for less feed losses
- dosing above trough grants
 - no blockage of dosing device with wet feed
 - optimal feed hygiene
- integrated mixer to avoid feed bridging
- simple adjustment of dosing
- easy assembly
- for 30 – 35 animals per feeder
- flexible integration in pen partition
- stainless steel floor anchors, U-profiles and square posts as optional accessories

Accessories:
